

**Summary of Chemical Data Reporting (CDR) Inorganic Byproducts Negotiating Committee:  
May Organizational Planning Meeting**

On May 9 – 10, 2017, EPA held a public meeting with prospective members of the committee to negotiate a proposed rule providing for limiting chemical data reporting requirements under subsection 8(a) of the Toxic Substances Control Act (TSCA), for manufacturers of any inorganic byproducts, when such byproducts are subsequently recycled, reused, or reprocessed. This negotiation process is required by TSCA, as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act. The objective of the negotiated rulemaking process is to develop and publish a proposed rule by the statutory deadline of June 22, 2019.

Under the TSCA Section 8(a) Chemical Data Reporting (CDR) rule, EPA collects data from manufacturers (including importers) on the manufacturing, processing, and use of chemical substances in commerce, for those chemical substances listed on the TSCA Inventory.
